Today's Market Overview

Monday, April 18, 2016

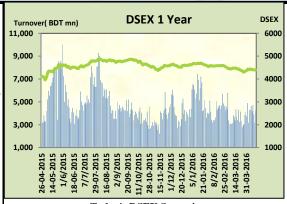

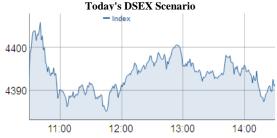

Market continued the losing streak for the consecutive two days with heavily improved turnover. The premier bourse of the nation opened with a negative mood and continued the same mood till the closure but activeness of buyers tried to recover market for several times but lastly closed with marginal loss. Investors remained very active and most of them were busy in shifting. Most of the concentration occurred in some major sectors like Engineering, Power, Pharmaceuticals & Telecom and thus actually helped the market to close in flat movement. Sellers tried to dominate like the previous days especially in Cement and Power sectors. Improvement in turnover eased the tension of general investors as it crossed 4 billion mark after two days and most of the participation occurred in major sectors which created the investors optimistic though testing of 4400 DSEX mark failed several times. Among the major sectors Food & Engineering was the best gainer followed by Tannery and Textiles. Jute was the worst loser followed by Cement & Service. Other two indices DS30 & DSES the shariah based index both failed to perform.

The general gauge DSEX ended at 4391.42 with a decline of -0.04% which cut only 1.92 points from the broad DSEX. The Turnover advanced heavily by +34.6% which was 1095 Million BDT healthier than that of previous day and finally finished the mark at 4257.96 million BDT. A total of 134 issues advanced with 142 declined and 45 remained unchanged. Sectors that improved were: Bank (+0.4%) Engineering (+1.5%) Food (+1.9%) NBFI (+0.4%) Telecom (+0.1%) Textiles (+0.9%) Tannery (+2.4%) & Sectors that declined were: Cement (-1.0%) Ceramics (-0.7%) Pharmaceuticals (-0.2%) Power (-0.8%) Service (-1.0%) Insurance (-0.5%).

KEYACOSMETIC topped in the Volume chart with a turnover of 26.32 BDT crore. BDLLAMPS ranked top in gainer chart with a price hike of +10.0~% and PROGRESLIFE topped in the loser chart with a decline of -8.7% from its prevailing price. BATBC led the way in the index mover chart while
